# WH WORDS

WHAT

WHERE

WHY

WHO

WHEN

HOW

# WH QUESTIONS

They are used to give an appropriate information rather than to answer “yes” or “no”.

WH	EXAMPLE
What	What <b>are</b> you doing?
Where	Where <b>is</b> she living?
When	When <b>are</b> they coming?
Who	Who <b>is</b> singing?
Why	Why <b>are</b> you typing a letter?
How	How <b>is</b> she cooking?

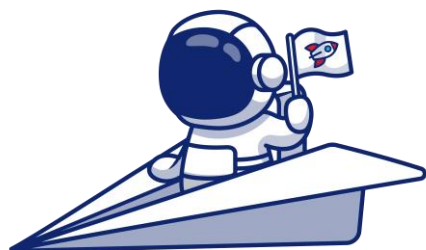

# WH QUESTION STRUCTURE

What **are** you **doing**?

# LET'S PRACTICE READING

Read the following text and highlight the simple present tense and the present continuous tense.

Variables are a way of storing pieces of data in your program. Let's imagine that right now, I'm creating a variable, and, when this happens, an area of the computer's memory is reserved by me, and the data is stored in it.

Now, I am controlling this area of memory, so I am retrieving data from it, changing the data, or getting rid of it all together.
