

## ACTIVITY #3

### Type of activity: Emparejar

#### Matching heading activity

**Instructions:** Match the following headings with the corresponding statements from the previous reading.

1. Analyzing Survey Responses
2. Technical Aspect of Word Embeddings
3. Music/Video Recommendation System
4. Domain Adaptation in Machine Learning
5. Word2Vec and Word Embeddings in NLP Applications

#### Statements:

- A. "Germany is to Berlin as France is to \_\_\_?"
- B. Understanding the significance of word embeddings in deep learning.
- C. Utilizing Word2Vec for actionable metrics from customer reviews.
- D. Enhancing user experience through a recommendation system for music or video.
- E. Adapting machine learning models to linguistically different datasets in various domains.
