

Matching Activity 1: Information Security Framework and Security Policies

Instructions: Match each security policy or concept with its correct description. Write the letter of the description next to the correct policy name.

Security Policies

1. Password Policy _____
2. Data Protection Policy _____
3. Access Control Policy _____
4. Incident Response Policy _____
5. Acceptable Use Policy _____

Descriptions

- A.** This policy outlines how sensitive data, such as personal information or financial records, should be protected, including encrypting data and restricting access.
- B.** This policy defines how employees should create and manage their passwords, including the use of complex passwords and regular changes.
- C.** This policy establishes who has access to various data and systems, ensuring that employees only access the information necessary for their job.
- D.** This policy provides steps to follow in case of a cyberattack or data breach, including how to report, investigate, and recover compromised data.
- E.** This policy provides guidelines for the appropriate use of company devices and networks, such as prohibiting access to certain websites or downloading unsafe software.
