

# UNIT 5

## CYBERSECURITY ON SOCIAL PLATFORMS

### General objectives

- Acquire fundamental vocabulary and key terms associated with cybersecurity, specifically in the context of social platforms.
- Develop reading comprehension skills in cybersecurity contexts.
- Engage with reading materials by identifying key cybersecurity terms, using them in relevant sentences, or summarizing texts that discuss online safety and security measures on social platforms.

### SKILLS TO BE DEVELOPED

- **Linguistic competence:** Recognize and understand basic vocabulary, concepts and phrases related to cybersecurity and social platforms.
- **Pragmatic competence:** Comprehend basic written descriptions through reading.
- **Sociolinguistic competence:** Contextualize vocabulary within real-world scenarios, enhancing abilities to relate linguistic forms to their practical uses in the field.
- **Topical Competence:** Read and understand texts related to social platforms and cybersecurity, such as recent innovations in the field.
