Lesson 1:

Cybersecurity on Social Platforms

1- Idiom of the day:

Pushing the envelope: This curious idiom is used when talking about a product or process that is testing the limits of what is possible or acceptable in technology or innovation.

“The designer pushed the envelope with a bold and unconventional user interface.”

2-Discuss the following questions about cybersecurity

- What is cybersecurity?
- Why is cybersecurity important?
- What is a computer virus?
- What are some common types of cyber attacks?
- How can we protect our computers from viruses?
- What is a strong password?
- Why should we update our software regularly?

3- Watch the Video “Cyber Security Awareness Training: Social Media”

Video URL: <https://www.youtube.com/watch?v=qgx42ACUVNU>

4- Before the reading, socialize the following vocabulary:

Keywords:

- **Data:** Information about us.
- **Privacy:** Keeping our information safe.
- **Digital World:** Internet and technology.
- **Digital Footprint:** Record of what we do online.
- **Ads (Advertisements):** Messages to sell us things.
- **Data Breaches:** Leaks of private information.
- **Digital Marketing:** Using online data to sell things.
- **EU (European Union):** Group of European countries.
- **Law:** Rules made by a government.

5- Reading: You and your data

6- Read each of the following statements and decide whether they are true or false based on the reading passage about digital data and privacy.

- Digital technology has made our data more private. _____
- Websites and apps collect data about our online behavior. _____
- Our 'digital footprint' includes our online searches and purchases. _____
- Digital marketing involves making money from our online data. _____
- We always know when and how our data is being used online. _____
- Data breaches can expose our personal information. _____

- The European Union has not created any laws regarding online data. -----
- It is important to understand how our data is used and to demand better protection. -----

7- Watch the video “Cyber Security in 7 minutes”

Video URL: <https://www.youtube.com/watch?v=inWWhr5tnEA>

8- Game about the previous video to check your understanding:

URL for teachers:

https://quizizz.com/admin/quiz/659621a32740db85d0cd7130/cybersecurity?source=quiz_share

URL for students:

<https://quizizz.com/join> (The teacher will give a code to the students for them to play).
