

## DISCUSSION QUESTIONS ABOUT THE FUTURE OF THE CLOUD

**How do you foresee the future integration of emerging technologies like AI, blockchain, and edge computing shaping the landscape of cloud services?**

**With the increasing focus on data privacy and security, what measures should cloud service providers prioritize to ensure trust and compliance in the evolving regulatory environment?**

**As the demand for cloud services grows, what challenges do you anticipate in terms of scalability, sustainability, and the ethical implications of cloud computing?**
